

# Jumper On U

Jack Gray

One drink between me and you  
Fallin' asleep gets easier to do  
When we smoke weed, lie about the truth  
Is this the scene where I walk out the room

I needed you to let go  
Roses on a bed where I won't lie  
Wasn't it the best though  
Please don't let me break your heart

Kinda made a mess though  
Isn't this the reason we fight  
Easier to let go  
But harder to revive

Can I dare to look upon your face  
I've been high for so long, I forgot the pain, oh  
If I right my wrongs [?] oh-oh-oh-oooh  
You might fall off, and I'll be there to blame

I needed you to let go  
Roses on a bed where I won't lie  
Wasn't it the best though  
Please don't let me break your heart

Kinda made a mess though  
Isn't this the reason we fight  
Easier to let go  
But harder to revive

(I can't stand beside you sober  
If I don't remember so far  
I can't stand beside you sober, oh  
If I don't remember so far)

I can't stand beside you sober, oh  
If I don't remember so far  
I can't stand beside you sober, oh  
If I don't remember so far

Fuck you  
Well I love you too  
I hate you  
You're dancing in my room

Fuck you  
Well I love you too  
I hate you  
You're dancing in my room
