Finding out the hard way
Forgot how good it feels to be alone
You dig? (Mm)
Watch a movie on your phone
For real
Is this how I'm supposed to feel?

"Save me some," she said, love, I felt like
You could've called it something else
But I couldn't think of nothing else
For real
'Cause it was so hard to tell

Make it easy for me
Baby, take it easy on me

These days don't end
And you lost the things that brought us closer
We're spread so thin
And that's all it takes to knock you over

Winding down a long day
Forgot how hard it was to sleep alone in here
Feel like I ain't folded clothes in years
I can't believe it's over still (Over still)

And long way down
You stay 'round
The whole time
But it wasn't for yourself
I
I still don't know how you felt
For real, baby
'Cause it was so hard to tell
You can't blame me

I don't put on a act for everybody
It wouldn't break your back to stand beside me
Forever and a mile was so tantalizing
And I try to force my smile but can't deny it

Make it easy for me
Baby, take it easy on me

Make it easy for me
Baby, take it easy on me

Make it easy for me
Baby, take it easy on me
