

Take Our Time

Jack Gray

Don't get too comfortable
I'm checking out at ten
The writing is on the wall
Why don't we just pretend

And she said
What's the point of waiting
On the sun to come up
If it's not as bright
And she said
What's the point of holding
Onto something you love
Just to say goodbye
We can't fold up forever
We're breaking this tether
One way or another
After tonight
Let's take our time

Halogen leaking in
Framing your silhouette
Down to the bitter end
Silence and cigarettes

And she said
What's the point of waiting
On the sun to come up
If it's not as bright
And she said
What's the point of holding
Onto something you love
Just to say goodbye
We can't fold up forever
We're breaking this tether
One way or another
After tonight
Let's take our time

Let's take our time... time... time yeah
Let's take our time
