That Guy

Jack Gray

Roll another
I don't wanna sleep
Man I'm seeing colours
In my cuppa tea
We got tropic thunder
Speed runner
You know what I mean

Under covers, said I'd never leave
But something's come up...
Got a little green
And all my brothers
But my lover says...
You become someone else when you get fucked up
When you get fucked up

You don't always wanna be with that guy
The boy that's always tripping over cloud 9
Even though I always let you down
You're the only one that can save me from myself
That's nice
Waking up like every day is velvet skies
But you can always see the other side
You're the only one that can save me from myself
Save me from myself

So there you are
Not getting all of the attention you need
Yeah it's all on me
Cause I get tired
And I can hardly speak the words you wanna hear
We get by...
Always hanging on the edge of our seat
Yeah it's all on me
And I'm inspired
And I know that you're waiting on me
But I can't wait to get fucked up
(Get fucked up, get fucked up ooh)

You don't always wanna be with that guy (that guy)
The boy that's always looking for a good time
Even though I always let you down
(Always let you down)
You're the only one that can save me from myself
(Save me from myself)
That's nice
Waking up like every day is velvet skies
But you can always see the other side
(See the other side)
You're the only one that can save me from myself

Nah
You're the only one
You're the only one
You're the only one
Babe!
