

Every Night

Jack Harlow

Creepin' down the avenue
Neighbors looking out the window, watchin' as I'm passin' through
Bass bumpin' while I'm ridin' with a pack of goons
Mobbin' through the city all we ever do is act a fool
I ain't going back to school, yeah I swear I really mean it
Never gave a fuck about my grades and yet I'm still a genius
If I ever said I like you that was real facetious
All these girls just say I'm handsome
Bet they wanna feel my penis
Life is such a slippery slope
If I did it once I probably did it some more
If you tell me don't do it, I'm gon' give it a go
And if it's Friday night I won't be sittin' at home
So meet me at Qudoba, I'm gon' roll up it ain't nothin' to me
Pinto beans in my burrito, roll it up and shove it in me
Then we hit the spot, I roll it up, and then you puff it quickly
Rollin' with my homies cause they keep that shit one-hundred fifty

Let's go

Man, you know we do this erry night
Imma keep on movin' till I'm paralyzed
I won't shed a tear until my parents die, swear to god
Got the whole neighborhood terrified

Ain't no turnin' the key

I got this shit locked down and it's workin' for me
Probably heard I'm a beast, that's the word on the street
Controversial with the verses, been disturbing the peace
And lately I been learnin' bout the birds and the bees
Dropped a mix tape and lost my virginity
All this shit talkin' ain't discouragin' me
Cause I know what I envision's what I'm certain to be
Yeah we be movin' so anonymously
Yup, tell 'em no limits when you ridin' with me
You kinda like me except you not as crispy
We up at Applebees probably droppin' fifty
And I been the type to leave a generous ass tip too
I ain't got no problems so please tell me what's the issue
I don't need opinions all them shits have been distorted
I ain't trippin' over nothin' worry bout it in the mornin'

Let's go

Man, you know we do this erry night
Imma keep on movin' till I'm paralyzed
I won't shed a tear until my parents die, swear to god
Got the whole neighborhood terrified
