

ONCE MAY COMES

Jack Harlow

If you wondering what may come from it
Once May comes then we graduate for the summer
'Til then, lock in
Watch the cake come from it
Pray to God we break one hundred
Once you get it popping
Watch the hate come from it

Chicks I used to chase come from it
I can ask my bro he gonna stay one hundred with me
I know what they talking about now
And my Brodie he got principles
Don't often back down
And I think they gone tell me when I'm off the track now
But as for right now man I'm off in this bitch

About to set it off in this bitch

We don't often get missed
At least not how we used to in the old days
Heat rock what we groove to
And they all say
You could put a milli on us
You could put a milli on us
I can keep it really honest
They fuck with you
But see they really on us
You can put a milli on us
