

# RAIN

Jack Harlow

I know you tried cryin'  
It didn't help nothin', funny how the time flies  
Middle school classmates and the crime times  
These some tryin' times  
My girl summertime fine, wintertime cold, too  
Everybody won't accept nothin' but the old you  
Giving you advice like I'm not gon' hold you  
I wish you had 'cause you don't know what I go through  
They don't know what you-

They don't know what you go through  
You keep it on the low, too  
They tell me that they feel me  
They tell me that its soulful  
Type of shit that make the people tell you that it's so true  
Right after you say it, 'cause they just feel like they know you  
They just feel like they know you  
But they don't know you  
But they don't know you  
But they don't-

I know you tried cryin'  
It didn't help nothin', funny how the time flies  
Middle school classmates and the crime times  
These some tryin' times  
My girl summertime fine, wintertime cold, too  
Everybody won't accept nothin' but the old you  
Giving you advice like I'm not gon' hold you  
I wish you had 'cause you don't know what I go through  
You don't know what I-

I know you tried cryin'  
It didn't help nothin', funny how the time flies  
Middle school classmates and the crime times  
These some tryin' times  
My girl summertime fine, wintertime cold, too  
Everybody won't accept nothin' but the old you  
Giving you advice like I'm not gon' hold you  
I wish you had 'cause you don't know what I go through  
They don't know what you-

They don't know what you dealin' with  
They don't know 'bout the empty spot you got and what you fill it with  
You chasin' death for the thrill of it  
The skeletons is comin' out the grave like the Thriller vid  
I know you wish that you were still a kid  
Woke up from a dream wishin' I was in the Ville again  
I can see my pops silhouette in everything I do, but I don't see him anymore  
It makes me wonder what I even do it for if I don't see him anymore  
Will I be happy with the things that I achieve? And what's more  
I don't even want to think what's in store for me (Store for me)  
I wrote a note and I'ma leave it on the door  
I hope you see it while you're leavin' 'cause I need for you to read it  
Know you gave me little space, I think I need a little more  
I wrote this for you 'cause you mean a little more to me to me

I know you tried cryin'

It didn't help nothin', funny how the time flies  
Middle school classmates and the crime times  
These some tryin' times  
My girl summertime fine, wintertime cold, too  
Everybody won't accept nothin' but the old you  
Giving you advice like I'm not gon' hold you  
I wish you had 'cause you don't know what I go through  
They don't know what you-
