

Flutter

Jack Ingram

No one can make me stammer and stutter
Fall over every word that I utter
No one else can talk me to takin' another view
No one else can make my heart flutter like you

No one drives me to exasperation
Nobody gives my heart palpitations
Except for you baby, it's no exaggeration, it's true
No one else can make my heart flutter like you

No one else can make my heart flutter
There's a hole over me and it's gettin' no cover
'Til you tell me you'll be my lover
And you're convinced we were made for one another
You are the one and there ain't no other

No one else can make my heart flutter
There's a hole over me and it's gettin' no cover
'Til you tell me you'll be my lover
And you're convinced we were made for one another
You are the one and there ain't no other

No one else can make my heart flutter
There's a hole over me and it's gettin' no cover
'Til you tell me you'll be my lover
And you're convinced we were made for one another
You are the one and there ain't no other

No one else can peak my desire
No one else makes me a spinnin' tire
Turnin' and churnin' and burnin' on fire but you
No one else can makes my, no one else can makes my
No one else can makes my heart flutter like you
