

One Thing

Jack Ingram

I used to be so down and out
I used to be so blue
Now the only thing I talk about
Only thing I do

Is spin around like a school kid
Just off the merry-go-round
Yeah I'm dizzy but it's 'cause I'm headed
To the one good thing I've found

One thing as good as gold
I'm nothing without you to hold
And one thing I know in this world
Is I need you to be my girl

I got so good at hiding
I couldn't find myself
Yeah but baby you got me smiling
And feeling like someone else

Yeah you changed my makeup
I ain't the same sad clown
Yeah ever since you showed up
Hey this ain't the same sad town

One thing as good as gold
I'm nothing without you to hold
And one thing I know in this world
Is I need you to be my girl

One thing as good as gold
I'm nothing without you to hold
One thing I know in this world
Is I need you to be my girl

And one thing, good as gold
Yeah I'm nothing without you to hold
Yeah the one thing I know in this world
Is I need you to be my girl, be my girl

You're the one thing
You're the one thing
You're the one thing
