

Picture on My Wall

Jack Ingram

Babe I know it's late
I probably should not call
But it's times like these when I need you most of all
Well I been feeling down
(I been feeling down)
Hadn't slept for days
(Hadn't slept for days)
Sittin' in my motel a million miles away

There's this picture it's painted on my wall
I know you would not like it at all
But tonight it made me think of you so I thought that I'd call
And tell you about my picture it's painted on my wall

I don't know the artist
And I don't really care
But the pretty colors made me think of your pretty hair
And there's a big ol' sunset
And there's a shady tree
It's the perfect place for you to come and meet with me

There's this picture painted on my wall
I know you would not like it at all
But tonight it made me think of you so I thought that I'd call
And tell you about my picture it's painted on my wall

It doesn't take much
It's all I do
You show me anything and
and baby, I'll think of you.

I love you baby.
