

## Red, White And Blues

Jack Ingram

The skys lighting up and everybody's so high  
Come take my hand its the fourth of July  
God bless America and all of that shit  
I should probably feel better but I feel I should quit

So raise a flag for the boys who've paid their dues  
So I could be free here to live with these blues  
No it doesn't seem right everybody's so high  
And I'm crying the blues on the fourth of July

Take a walk downtown it's a beautiful day  
Smoke a cigarette, watch the parade  
We'll sing God bless America and all of that stuff  
I should probably feel better, I've had enough

So raise a flag for the boys who've paid their dues  
So I could be free here to live with these blues  
No it doesn't seem right everybody's so high  
And I'm crying the blues on the fourth of July  
No it doesn't seem right everybody's so high  
And I'm crying the blues on the fourth of July
