

Caffeine

Jack Kays

I remember the first time that I met you
It was high school in the theater
I said that I loved you and I meant it
But you had a boyfriend, I thought we were deeper
Pick me up in the morning
Your CD's playing, you always had the best taste
I just adored it, my best friend
But I wanted more than

I wanted more than you could give me
So certain for a fifteen year old
Something 'bout you, it feels like caffeine
Pure gold
Something 'bout you, it feels like caffeine
Something 'bout you, it feels like caffeine

I remember the first time that you kissed me
In the basement with the light off
It felt just like a movie in the theater
You said, "What are you doing?"
I didn't know either
Act like nothing ever happened that night
To me it felt like magic
Secretly high on endorphins
Fleeting, 'cause I wanted more than

I wanted more than you could give me
So certain for a fifteen year old
Something 'bout you, it feels like caffeine
Pure gold
Something 'bout you, it feels like caffeine
Something 'bout you, it feels like

Stay with me
If it's not our time, then will you wait for me?
I know that we're young, but this is destiny
I couldn't be me without you, without you
I'll sit here patiently
Hoping for the day to come where you can see
All the stars they fall in line for you and me
I can't wait for you to see too, to see too

I wanted more than you could give me
So certain for a fifteen year old
Something 'bout you, it feels like caffeine
Pure gold

I wanted more than you could give me
So certain for a fifteen year old
Something 'bout you, it feels like caffeine
Pure gold
Something 'bout you, it feels like caffeine
Something 'bout you, it feels like caffeine
Pure gold
