

Need Me

Jack Kays

Hold me like I'm leaving
Like you need me more than anybody else
'Cause I need you to need me
Without you, I would be nothing
But with you, I'm something
Isn't it funny how it all works?
I want you to love me
Just say that you love me

Say I'm the only, one you want when you're lonely
And you need me to be there when it's hard to make it better
'Cause I wanna know you
I want you to know me

Do you see me? I do everything for you
'Cause I fucking adore you and I want you to notice
There's something about you
I wish I knew how to
Explain it, the way you smell in the morning
When you get mad but don't say it, when I ask you, you ignore me
It's making me crazy
I think that I like it

Hold me like I'm leaving
Like you need me more than anybody else
'Cause I need you to need me
I wanna know you, I want you to know me
To be your one and only, forever and more
'Cause I need you to need me
