

# Cipralex

Jack Peñate

Lover  
Don't tell me  
That I didn't have you

Lover  
Don't tell me  
That I didn't have you  
Didn't have you

Dream big, act small  
Live short, die tall  
Eyes wide, heart narrow  
Looking deep, sounding shallow  
Point left, turn right  
Dreaming days, awake the night  
Sing praise, block blame  
Feel pride, run from shame

Lover  
Don't tell me  
That I didn't have you  
Didn't have you  
Didn't have you  
Didn't have you

Take all, give nothing  
All false, deserve something  
No rules, dark hunting  
Power tools, a long lunchin'  
Win weak, lose power  
Spit sweet, suck sour  
Stone symbols, paper planes  
Cipralex running through my big vein

Lover  
Don't tell me  
That I didn't have you

Didn't have you  
Didn't have you  
Didn't have you

Lover  
Don't tell me  
That I didn't have you  
Didn't have you  
Didn't have you  
Didn't have you

Living in a dream, drowning in the low  
To everyone that I love, I'm sorry I must go  
Searching for the stream, the colors take me home  
To everyone that I love, don't pretend that you don't know

Lover  
Remember when you lived inside my life  
I could tell you why I need tonight  
Wanted you to know that I was healing  
Didn't receive the reasons I was leaving

I didn't need a reason to believe  
I only wanted you next to me  
I could take the pain that I received  
As long as I could feel you next to me
