

Love sucks but I want it from you
Love sucks but I want it from you
Love sucks but I want it from you
And everybody's talking about it

If you want it
If you want it
If you want it
Are you gonna get it from me
Are you gonna get it from me baby

Love sucks but I want it from you
Love sucks but I want it from you
Love sucks but I want it from you
And everybody's talking about it

You said you'd take me
You said you'd take me
You said you'd take
Take me to the USA
Such a long way

You dream a million dollar dream
I can't let you go of that
Not now not ever, still

Love sucks but I want it from you
Love sucks but I want it from you
Love sucks but I want it from you
And everybody's talking about it

Young lady, sweetie honey
You're not alone in this
Fight, fight till you get it right
Fight, fight till you get it right
Young lady, sweetie honey
You're not alone in this
Fight, fight till you get it right
Fight, fight till you get it right

Love sucks but I want it from you
Love sucks but I want it from you
Love sucks but I want it from you
And everybody's talking about it

Love sucks but I want it from you
Love sucks but I want it from you
Love sucks but I want it from you
And everybody's talking about it

Love sucks but I want it from you
Love sucks but I want it from you
Love sucks but I want it from you
And everybody's talking about it

If you want it
If you want it

If you want it
Are you gonna get it from me
Are you gonna get it from me
