

Dark Star

Jack River

Touch me one time before you go
Love me like I'm something that you know

Think back the freckles on your face
Light up, everything is okay now

You're my dark star baby come on spin me round
Be my hot shot ticket to the edge of time
Dark star, baby come spin me around
Don't leave your loved up lover on the cold cold ground

Movie screens and neon dreams
You are the darkest star I've even seen

Now this is the part
Where the credits starts to roll
Walk me out
I'm stumblin', I'm falling now

You're my dark star baby come on spin me round
Be my hot shot ticket to the edge of time
Dark star, baby come spin me around
Don't leave your loved up lover on the cold cold ground

Do you wanna go, do you wanna go
Do you wanna go, do you wanna go
Do you wanna go, do you wanna go

When I drive past your house
I see al the things I've never wanted to see
You and me in a memory and will I love again?
There's no stars in my eyes, I spent them all on loving you

In the night you showed me eveything I know
In the night you showed me eveything I know

You're my dark star baby come on spin me round
Be my hot shot ticket to the edge of time
Dark star, baby come spin me around
Don't leave your loved up lover on the cold cold ground

Do you wanna go, do you wanna go
Do you wanna go, do you wanna go
Do you wanna go, do you wanna go
