

Fields

Jack River

When I dream of love
It's you I'm thinking of
I met you in a dream
Beneath a running stream
And everybody thinks I'm crazy
Putting all my money on you

There's something in the night
That seems to catch my eye
And, no, nobody else can see it
But that's why I believe in it

When I dream of love
It's you I'm thinking of
You're no longer in the dark
I see you running but I know you will be back
Dream of love
It's you I'm thinking of
You're no longer in a dark
I see you running but I know you will be back

The children will come running from the fields
When they find out it can be real
And I will not hesitate to feel
Anything that I've imagined

'Cause there's something in the night
That seems to catch my eye
And, no, nobody else can see it
But that's why I believe in it

When I dream of love
It's you I'm thinking of
You're no longer in the dark
I see you running but I know you will be back
Dream of love
It's you I'm thinking of
You're no longer in a dark
I see you running but I know you will be

Are you in the dark?
Hanging like a star
Oh, I see you running
But I know you will be back
'Cause I'm still dreaming of you
I'm still dreaming of you
I'm still dreaming of you
I'm still dreaming of you
