

# Fools Gold

Jack River

You don't like rollercoasters  
How could you ever love a girl like me?  
I took you to the end of my street  
So you could see my bones were cut with a promise to you  
Our stars came in a packet of two

She's walking up to you  
She's dying to be by your side  
She's walking up to you  
She's dying to be by your side

Fool's gold, shining in the night, so easy on the eyes  
Fool's gold, how many times do I have to realise?  
Fool's gold, so bright, fooling everyone in sight  
Fool's gold, how many times do I have to realise?

I won't bend to you, no - I don't know how to  
Can you handle a girl like her?  
She is bolder than you think  
Can you love a girl like me  
While she is running through your dreams?  
Dragged through the midnight, and it reignites

She's walking up to you  
She's dying to be by your side  
She's walking up to you  
She's dying to be by your side

Fool's gold, shining in the night, so easy on the eyes  
Fool's gold, how many times do I have to realise?  
Fool's gold, so bright, fooling everyone in sight  
Fool's gold, how many times do I have to realise?

She's walking up to you  
She's dying to be by your side

Fool's gold, shining in the night, so easy on the eyes  
Fool's gold, how many times do I have to realise?  
Fool's gold, so bright, fooling everyone in sight  
Fool's gold, how many times do I have to realise?  
Fool's gold, shining in the night, so easy on the eyes  
Fool's gold, how many times do I have to realise?  
Fool's gold, so bright, fooling everyone in sight  
Fool's gold, how many times do I have to realise?
