

# Honey

Jack River

Coming on like honey, yeah, it's dripping through your bones  
Take a shopping cart but still you want me on my own  
The conversation's spinning, I'm so out of control  
Emotion is a game until you light up your home

You think you're so free  
You can forget about me  
What will it be this time  
You say I talk too much  
Have you had enough  
Do you wanna leave  
And do you think you'd meet a girl like that?

Meditate the matter out of someone you love  
Take me on a ride until you want to get off  
You like the way I hold the line  
Does it scare you that you're wasting time

You think you're so free  
You can forget about me  
What will it be this time  
You say I talk too much  
Have you had enough  
Do you wanna leave  
And do you think you'd meet a girl like that?

Baby, I hope you like the limelight  
Baby, I hope you see the stars bright  
Baby, I hope you like the limelight  
Baby, I hope you see the stars brighter

You think you're so free  
You can forget about me  
What will it be this time  
You say I talk too much  
Have you had enough  
Do you wanna leave  
And do you think you'd meet a girl like that?
