

Later Flight

Jack River

It's late, I don't know
If I'm coming home
You say "Take all your time
Precious thing of mine"

Baby will you stay tonight?
Will you take the later flight
Dream, I dream a thousand more
See us lying on your floor
Lying there, on your floor
Lying there, on your floor

I wanna know
I wanna know
I wanna know
Do you feel it?
I wanna know
I wanna know
I wanna know
Do you feel it?

I will love you for all of my life
I know, I know
I will be forever by your side
I know

Taking all the things tonight
Tripping like a tiny child
You just have to do
All the funny things you do to get me high
All the funny things you do to get me high

I wanna know
I wanna know
I wanna know
Do you feel it?
I wanna know
I wanna know
I wanna know
Do you feel it?

I will love you for all of life
I know, I know
I will be forever by your side
I know

Moving in the dark now
Can't stop the night without your touch
Say it like you want to
Say you'll love me forever
What a thing to say
What a thing, what a thing to feel this way
What a thing to say
What a thing, what a thing to feel this way

Do you feel it?
I will love you for all of life

I know, I know, say you'll love me forever
I will be forever by your side
I know, say you'll love me forever
