

Stranger's Dream

Jack River

I left my jacket on a California train
I don't know if I'll pass that way
If I'll pass that way again
It was ten years ago, I still feel the same
I don't know if I'll pass your way
If I'll pass your way

I'm six floors high in a stranger's dream
And everybody's looking 'round for me
Too in love to let it go
Too far gone to let you know
I'm six floors high in a stranger's dream
Six floors high in a stranger's dream
Six floors high in a stranger's dream

The plane takes off
I know that everything will change
Was this all in the contract
When you called me up that day?
The vision hurts
I can't just close my eyes and stay
You're crying in the bathroom
On a holiday

I'm six floors high in a stranger's dream
Everybody's looking 'round at me
I'm too in love to let it go
I'm too far gone to let you know
That I'm six floors high in a stranger's dream
I'm six floors high in a stranger's dream
I'm six floors high in a stranger's dream

Take the elevator down to the pool
Check out of the hotel baby it's cool
Shaking every hand like Scott's in the room
Don't look in the mirror baby it's cruel
Tangerine and green, ice cream
We don't need to see ID

Take a mint on me
Take a mint complimentary
Take the time you need
Take the time you need, it's free
Take the time you need, it's free
Take the time you need
