

Catapult

Jack Savoretti

Following the headlights
Got to find a way back to you
I can be the white knight
You can play the princess
We'll be running like outlaws
Hiding in the midnight
Break down them gates
Let in the sunlight

Throw me over these walls
High up in the atmosphere
If I could catapult my heart
Watch the empire fall
I'm gonna get you outta here
If I could catapult my heart
To where you are

You say you had your heart broken
What a stupid little thing to do
Now you're tied to a train track
But I'm a gonna come
and rescue you
Make no mistake
I'll do whatever it takes

To get over these walls
High up in the atmosphere
If I could catapult my heart
Watch the empire fall
Ooh I'm gonna get you outta here
If I could catapult my heart
To where you are
If I could catapult my heart

Oh throw me over these walls
Ooh high up in the atmosphere
If I could catapult my heart
Watch the empire fall
Ooh I'm gonna get you outta here
If I could catapult my heart
To where you are
If I could catapult my heart
To where you are
I'm gonna catapult my heart.
