

Come Shine A Light

Jack Savoretti

Dressing up in black and blue like I have been so many times before

Every moment I spare with out you leaves me wanting more

If I close my eyes I can picture you here in my arms

Man I would kill just to keep you safe out of harm

Come shine a light on me

Your love is more than I'll need

This one is not for sale

As far as I can see

Come shine a light on me

Cigarettes and Alcohol singing songs just to pass the time

Everything I ever want never ends up being mine

So I just get real high catch your eye on a shooting star

Still remember the first time I saw you alone at the bar - all right

Come shine a light on me

Your love is more than I'll need

This one is not for sale

As far as I can see

Come shine a light on me

I can make my fist I can fight till I get what I need

But I'd rather be loving you - you loving me - all right

Come shine a light on me

Your love is more than I'll need

This one is not for sale

As far as I can see

Come shine a light on me

Come shine a light on me

Come shine a light on me

Come shine a light on me
