

Deep Waters

Jack Savoretti

No I won't give up
But I might give in
Give it up to love
And I'll never win
Picked my battles
Fight with grace
Always end up out of place
Stuck in the middle
Green silver and gold

At the risk of losing you
I keep doing what I do
Never stop pushing through
These deep waters
Need to be cold blooded
You need to be cold blooded
In these deep waters
In these deep waters
You need to be cold blooded
You need to be cold blooded
In these deep waters

And I said too much
Can I take it all back?
You can tell me with your touch
Where were at now I'm out of place
Stuck in the middle
Blinded by my own disgrace

At the risk of losing you
I keep doing what I do
Never stop pushing through
These deep waters
Need to be cold blooded
You need to be cold blooded
In these deep waters
In these deep waters
You need to be cold blooded
You need to be cold blooded
In these deep waters

I won't sink, I'll swim
I won't sink I'll swim

At the risk of losing you
I keep doing what I do
Never stop pushing through
These deep waters
Need to be cold blooded
Need to be cold blooded
In these deep waters
These deep waters
You need to be cold blooded
Need to be cold blooded
In these deep waters
These deep waters
You need to be cold blooded
