

# Don't Mind Me

Jack Savoretti

The touch in my bones is a little too cold  
The pain in my heart is a little too dark  
For you  
To bear  
The look in my eyes is a million miles  
The mask that I wear I just don't care  
But that's not true  
my dear  
I will always show  
Half of what I feel and know  
You should never ever let go  
Now you tried so hard and when it comes to love  
Don't mind, don't mind me  
Half the time you right  
Don't mind, don't mind me  
Don't mind me  
The path that I walk, the louder I talk  
The faster I live, the less that I give  
To you  
My dear  
The chances I take, the smile that I fake  
The price that I pay, the promise I make  
Was true  
My dear  
I can always see  
How I feel every day  
You should never ever let go  
Now you tired so hard and when it comes to love  
Don't mind, Don't mind me  
Half the time you right  
Don't mind, Don't mind me  
Don't mind me  
Like a toy you like to take apart  
Putting it back together is the hardest part  
You should never ever let go  
Now you tired so hard and when it comes to love  
Don't mind, Don't mind me  
Half the time you right  
Don't mind, Don't mind me  
Don't mind me  
You should never ever let go  
Now you tired so hard and when it comes to love  
Don't mind, Don't mind me  
Half the time you right  
Don't mind, Don't mind me  
Don't mind me  
Half the time you right  
Don't mind me
