

Lost America

Jack Savoretti

Calling out for change
The American way
Find somebody else to blame
Let's sing a song, a better day
Out on every street
Bright lights, big screens
Is this really what it means
Oh, Mother pray

Let us pray
For L.A
Lost America
Let us pray
For L.A
Lost America

From New Orleans to Bangladesh
From the East back to the West
Come with us and be the best
Make an enemy of all the rest

Summer of '69
A dream that barely survived
All these force bled alike
Lead us astray

Let us pray
For L.A
Lost America
Let us pray
For L.A
Lost America

Let us pray
For L.A
Lost America
Let us pray
For L.A
Lost America

Wave the flag and grab your gun
Another war has begun
Now it's all been said and done
We all lose
Nobody won

Lost America
Lost America
Lost America
