

## Step By Step

Jack Savoretti

Cut the tension with a knife, I'll tell you how it tastes  
When I drink from the cup of a beautiful life, not a drop will go to waste  
Help me find a reason, help me find my faith  
They were both sat here about an hour ago, now they've gone without a trace

And I'm scared I've lost another chance with every setting sun  
Trying to find the rhythm to this dance along with everyone

Step by step  
Walk with me into the night  
Oh, I can bring the darkness  
And you can bring the light  
Step by step  
I want to learn how to fly  
You can be my teacher  
Until I get it right  
And together we'll take flight

Send me back to the good old days, I wouldn't change a thing  
Life was a game we used to play and a song we loved to sing  
Sailing on the tears of time like Noah through the flood  
This is a fairytale of mine and it's written in my blood

But I feel I've lost another chance with every setting sun  
Trying to find the rhythm to this dance along with everyone

Step by step  
Walk with me into the night  
Oh, I can bring the darkness  
And you can bring the light  
Step by step  
I want to learn how to fly  
You can be my teacher  
Until I get it right

Getting in the way of love  
Is not how I'm gonna give it up  
I'm never giving up

Step by step  
Walk with me into the night  
Oh, I can bring the darkness  
And you can bring the light  
Step by step  
I want to learn how to fly  
You can be my teacher  
Until I get it right  
Oh, step by step  
Step by step  
Oh, won't you teach me  
Step by step?  
Oh, step by step  
Oh, step by step  
Oh, step by step  
Oh
