

Better

Jack Stauber

Another time (Another time)
Another broken one (Another broken one)
Another fixer (Fixer)
Another buried

And when we get along (And when we get along)
It's not focusing
Together we'll better get (We'll better get)
Something right

I won't forget it, though
Your eyes
Forget it all, ooh, forget it all, too
Forgive you, yeah
And when all screams to me
Country light

And make it merry
And make it merry
And make it merry
And make it merry
And make it merry
And make it merry
And make it merry
And make it merry
