

Bothersome

Jack Stauber

There aren't any lies you know
Clean the records and laugh alone
Horrific and dying
Am I not talking

The ringing of silence
When ringing is all we owe
Go wait for the time bomb
Die at home

And they only can lounge around
Elliptical lounging
Bothersome
And elliptical singing
La la la...

At least the style is closer now
Symmetrical but it's
Bothersome
And elliptical singing
La la la...

Heart wringing out
An infinite spout
So bothersome
And elliptical singing
La la la...

Then right back smoke the stack
With the feeling I was feeling
You could say I found it bothersome
And elliptical singing
La la la...

The song is the same thing
And the big kids oughta know
Drink your love
Ice cold

But we hate realizing
But we make the kids happy
So we can't really blame the boys getting old
