## **Bothersome**

**Jack Stauber** 

There aren't any lies you know Clean the records and laugh alone Horrific and dying Am I not talking

The ringing of silence When ringing is all we owe Go wait for the time bomb Die at home

And they only can lounge around Elliptical lounging Bothersome
And elliptical singing
La la la...

At least the style is closer now Symmetrical but it's Bothersome And elliptical singing La la la...

Heart wringing out
An infinite spout
So bothersome
And elliptical singing
La la la...

Then right back smoke the stack With the feeling I was feeling You could say I found it bothersome And elliptical singing La la la...

The song is the same thing And the big kids oughta know Drink your love Ice cold

But we hate realizing
But we make the kids happy
So we can't really blame the boys getting old
