

(Will it give me injury
Just try it
Can I tell a lie to you
Just buy it...)

Will it give me injury
Just try it
Can I tell a lie to you
Just buy it
Are you coming on to me
Deny it
When I turn the master key
You're higher than a star

Don't let life escape your gaze
Gotta read the signs
Capere Boni Temporum
Grasp the good times

Even in the worst of times
As hard as it can be
Vide Humanitas
See humanity

Will it give me injury
Just try it
Can I tell a lie to you
Just buy it
Are you coming on to me
Deny it
When I turn the master key
You're higher than a star

Keeping tight grasp on your raspy past
Can get you feeling low
Illud Dimittis
Let it go

Don't be blind and confine your mind
To what you can see
Statuam Te Liberum
Set yourself free

Will it give me injury
Just try it
Can I tell a lie to you
Just buy it
Are you coming on to me
Deny it
When I turn the master key
You're higher than a star
