

Tear squeezed, petrified
Mouth said that "Our love won't die"
But between those teeth is a rotten lie
Exasperation hit me like a thousand times
Suggest that I walk your line
Complex to collect your lie
And behind that smack is a simple pain
Simple is wrong inside your noble brain

Rolling in the nonsense, deploy the fantasy
For the horrors of life I do believe
Rolling in conundrums, deploy the fantasy
For the horrors of life I do believe
Rolling in the nonsense, deploy the fantasy
For the horrors of life I do believe
Rolling in conundrums, deploy the fantasy
For the horrors of life I do believe

It's all under the table
It's all under the table
It's all under the table

I know you're excited dear
Sophisticated since I turned 16
Read that book 'til my face turned blue
Randomly freak, screaming 'look what I can do!'
Go ahead, try to catch me now
Run faster than the best wow
And a look, a glimpse again, another notch on the belt
Eyes denied, just like my mama said

Rolling in the nonsense, deploy the fantasy
For the horrors of life I do believe
Rolling in conundrums, deploy the fantasy
For the horrors of life I do believe
Rolling in the nonsense, deploy the fantasy
For the horrors of life I do believe
Rolling in conundrums, deploy the fantasy
For the horrors of life I do believe

It's all under the table, wow
It's all under the table, wow
It's all under the table, wow
It's all under the table, wow

Oh, I, oh, I
It's so simple, my si-i-ight
A-takin' my love up on a ri-i-ide
A-hidin' about, you better hi-i-ide
I wonder why, I wonder why-oh-y
I cannot see with no si-oh-ight
A-everywhere 'bout, up on the ri-i-ight
A-hidin' about, you better hi-i-ide
I'm under light

I'm not the same
Rolling in the nonsense, deploy the fantasy

For the horrors of life I do believe
Rolling in conundrums, deploy the fantasy
For the horrors of life I do believe
Rolling in the nonsense, deploy the fantasy
For the horrors of life I do believe
Rolling in conundrums, deploy the fantasy
For the horrors of life I do believe

It's all under the table, wow
It's all under the table, wow
It's all under the table, wow
It's all under the table, wow

Deploy
