

Return to your houses
Over the Eastern waters
Sun shines over roses alone
For the flow
They see you waiting for the show
Are you coming back okay?

I wander around
Seeing faces that I know are
Unfamiliar

To others in hiding
Guess through the lens
Mystery is festering all around
It can change for you

I don't want the responsibility
Confine the means to it's cage
For the love
Life was soaring above
Are you coming back okay?

I wander around
Seeing places that I know are
Unfamiliar

To others who help me
Try to begin
Destiny can capture me like a fly
It can change for us
