

Temporary

Jack Stauber

Too tall to say goodbye
But I won't do it, believe me
Too smart to say you cried
But i won't do it, you want to

When the water falls then we carry on
When the water falls then we carry on

The poison upwards to the end
The kind of stuff you're reading about
I can't believe you're only temporary
And I won't do it, you want to

The poison upwards to the end
The kind of stuff you're reading about
I can't believe you're only temporary
I won't do it, you want to

The poison upwards to the end
The kind of stuff you're reading about
I can't believe you're only temporary
I won't do it, you want to

The poison upwards to the end
The kind of stuff you reading about
I can't believe you're only temporary
I won't do it, you want to, to, to
