

The End

Jack Stauber

There is no happy end
It's only just the end
There is no happy end
It's only just the end
There may be happy later, happy now and happy then
But there is no happy end

There is no happy end
It's only just the end
There is no happy end
It's only just the end
There may be happy later, happy now and happy then
But there is no happy end
