

## Windrag

Jack Stauber

No flight tonight on Red-Set Airline  
Although the flights were meant to be  
There was an accident  
All of the meanings bent  
And the 45 crashed into the sea

Red alert below the hurt will go  
If you let it inside you don't survive  
Let the station captain know  
That the pilot's still alive

I used to listen till the morning  
Then crash-landing came without warning  
I really tried my best  
But the trip was put to rest  
Can't sleep now the birds are chirping

Red alert below the hurt will go  
If you let it inside you don't survive  
Let the station captain know  
That the pilot's still alive
