

## Your It

Jack Stauber

Look at you, face down, sucking up spit  
Don't wanna work so you use your wit  
Can't fit and it's all you  
You're it, ha, have a fit

I drive faster than you (I don't know what you're talking about)  
)  
I drive faster than you (Once I did, I can't seem to anyway)  
I drive faster than you (Let's get this face guillotined for me)  
)  
I drive faster than you (Come on, turn away, go away)  
Aah...
