Why don't you open up? you find it easier to tell me a lie, oh
You want to break away, break away, break away but don't even t
ry

What were you thinking of?

That's the easy way out
That's the easy way out

Just to break away, break away, break away when you've had the

Little girl, didn't I show you how to love? Oh
What were you thinking of?

That's the easy way out
That's the easy way out
That's the easy way out
And that's not what love's all about

You know that I love you
You know that I think the world of you
You know that I love you
And baby, that's worth holding on to, oh, oh

Little girl, didn't I give you all my love? Oh
What were you thinking of?

That's the easy way out
That's the easy way out
That's the easy way out
And that's not what love's all about
