

# Love...Find It

Jack Wagner

Love, find it  
Shine on me (Shine on me)

People say I'm crazy  
Tell me I'm a fool  
They don't understand 'cause I made my own rules  
I've always been a loner  
An element apart  
I see the solution  
That fills up the heart

Yes, I know all about it  
Yes, I see what we all need  
It's just one thing

Love (Love), find it (Find it)  
Never leave it alone  
Got to stay together  
Talkin' 'bout love (Love), feel it (Feel it)  
Shine on me (Let it shine) eternally  
Talkin' 'bout love (Love), find it (Find it)  
Let it smile in your eyes  
'Cause love has no disguise  
It can be a part of you, ooh

I ain't got no money  
What can I say?  
I seem to make it through almost everyday  
It isn't always easy  
So what do you do?  
Remember that old secret you heard was so true

Now you know all about it  
Now you see what we all need  
It's just one thing

Love (Love), find it (Find it)  
Never leave it alone  
Got to stay together  
Talkin' 'bout love (Love), feel it (Feel it)  
Shine on me (Let it shine) eternally  
Talkin' 'bout love (Love), find it (Find it)  
Let it smile in your eyes  
'Cause love has no disguise  
It can be a part of you, ooh  
Talkin' 'bout love (Love), find it (Find it)  
Let it breathe in your soul  
Stay forevermore  
It can be a part of you, yeah

Sometimes love can be  
A melody of sorrow  
It's our own destiny  
So put time on our side  
Love, find it  
Shine on me (I said shine) eternally  
Ooh, talkin' 'bout love, feel it

Let it breathe in your soul

I'm talkin' 'bout (Love), find it (Find it)  
Never leave it alone  
Got to stay together  
Talkin' 'bout (Love), feel it (Feel it)  
Shine on me (Let it shine) eternally

That's right  
Talkin' 'bout  
Find it, find it  
Find it, yeah  
Talkin' 'bout  
Shine it, shine it  
Shine it, yeah  
I'm talkin' 'bout love  
I'm talkin' 'bout (Love), find it (Find it)  
Let it breathe in your soul, breathe in your soul  
We're talkin' 'bout (Love), feel it (Feel it)  
(I said) Shine on me (I said shine) eternally  
That's right  
Talkin' 'bout (Love), find it (Find it)  
Got to find that love  
Let it shine from above  
I'm talkin' 'bout (Love), feel it (Feel it)
