

# Premonition

Jack Wagner

I look to my left  
But you were standing on my right  
That's when I knew  
This wasn't just another night

You took a look at me  
And started the mystery  
Now you're on my mind  
I think you've been there all the time

I'm gettin' a premonition  
The writing's on the wall  
Intuition, I can hear the call  
I'm gettin' a premonition  
It's got me so confused  
Innervision leading me to you

I can't get to sleep  
It doesn't matter what I do  
Walking the streets  
With every step I think of you  
I know it sounds insane  
But I think my life has changed  
There's nothing I can do  
I know I've got to see it through

I'm gettin' a premonition  
The writing's on the wall  
Intuition, I can hear the call  
I'm gettin' a premonition  
It's got me so confused  
Innervision leading me to you

You took a look at me  
And started the mystery  
Now your on my mind  
I think you've been there all the time

I'm gettin' a premonition  
The writing's on the wall  
Intuition, I can hear the call  
I'm gettin' a premonition  
It's got me so confused  
Innervision leading me to you

I'm gettin' a premonition  
It's got me so confused  
Innervision leading me to you  
I'm gettin' a premonition  
It's got me so confused  
Innervision leading me to you
