

# Right Key

Jack Wagner

We've got the right key  
Turned in the wrong direction  
The right dream  
Waking up too fast  
It's a long road  
Full of good intentions  
And girl, if we take it  
I know we can make it last

It's like the world is waiting  
For a sign from our hearts  
A signal to start  
I feel my chains are breaking  
Emotional barriers  
That have kept us apart

All of our lives wasted  
On blind ambition  
We need the time to try

We've got the right key  
Turned in the wrong direction  
The right dream  
Waking up too fast  
It's a long road  
Full of good intentions  
And girl, if we take it  
I know we can make it last

Why don't we talk it over  
There on our battlefield  
Surrender together, yeah  
And while the world is watching  
We'll send out a message that will last forever

All of our lives wanting  
The right conditions  
We need the time to try

We've got the right key  
Turned in the wrong direction  
The right dream  
Waking up too fast  
It's a long road  
Full of good intentions  
And girl, if we take it  
I know we can make it last

Too much to walk away  
Turning wrong way  
We hold the key, let's [?]  
Girl, if we take it  
I know we can make it  
Girl, if we take it  
I know we gonna make it  
Girl, if we take it  
I know we gonna make it last
