

All Along the Way

Jack White

Who knows
If I could find you in the dark
When I'm old
You said, "I'll be back before
My coffee gets cold in your hand"
So I'll do the best I can to
Follow you into the dark every day
And we'll say the things that
Lovers often do

We're not dumb, we'll leave crumbs
All along the way
We'll take care of the things we share
And we'll find our way

We met in the rain
In a field of burning sugar cane
And when the smoke had cleared, we
Found ourselves all alone in the world again
I washed my hands to
Make sure no harm would come to you
And there were no words or plans to
Stop me from falling in love with you

We're not dumb, we'll leave crumbs
All along the way
If we don't look back and we follow this path
Then we'll find our way

We've come so far
Into the light from the dark and I know
You chose an unknown road
And it made us who we are in a way
I trust so much
That we'll find a way
We'll have love, our love
All along the way

When you're not scared
You turn my fear to bravery
When the sunlight hits your hair, it's
Like the whole universe was made for me
And I trust so much
That we'll find our way
We'll have love, our love
All along the way
