

Help Me Along

Jack White

If you help me along
I will promise to love you
Help me along and I promise to tell you
How I feel all along
I'll keep nothing else from you
Help me along and I'll help you as well

And I'm going to love you
And I'm willing to share
And I'm dying to take you
Everywhere

If I help you along will you try to forgive me?
Holding your arm as I follow your lead
If I help you along will you try to live with me?
I will make sure you have all the things that you need

And I'm wanting to show you
That I'm willing to share
And I'm going to love you
Everywhere

And I'll go to wherever you're going to
I'll go to wherever you are
And I'll love you whenever you say the word
I'll show you
Forever isn't far
Away

And I'm going to love you
And I'm willing to share
And I'm dying to take you
Everywhere

If you'll let me belong to you for richer or poorer
Let me belong to you for all that you're worth
Though the ties may unravel for the worse or for better
You should know that I'll travel to the ends of the earth

And I'm wanting to show you
That I'm willing to share
And I'm going to love you
Everywhere

If you need help and your hand is empty
I'll give you my help by holding your hand
And I'll need you too, I just need you to let me
Show you my love in the palm of your hand
