I've Got You Surrounded

Jack White

I've got you surrounded
I've got you surrounded with my love
Now don't you know me girl?

(Got you surrounded)

How well do you know me?
(Got you surrounded, got you surrounded, boy)
How well do you know?
How well do you know?

Yeah

We need to find a place that's neutral
And get it in our minds so that the feeling's mutual

You've got love all around
All around you
You've got love all around
All around you
(Yes you do)

I've got you surrounded
I've got you surrounded with my love
Now don't you know me, girl?
I've got you surrounded
(Don't you know?)
I've got you surrounded with my love
Now don't you know me, girl?

(I know you know)

Falling down with you
We trip and fall together
Falling down
We trip and fall together
Falling down
We trip and fall together
I know you well
If I know you at all
And if you know me
Can't you tell

That I have got you surrounded with my love
Now don't you know me?
I've got you surrounded with my love
Now don't you know me well?
