

## Respect Commander

Jack White

She commands my respect  
She commands my respect  
And I can't recollect  
I'm at a time in my life  
She has all my respect  
She has all my respect  
And I cannot protect  
My heart from her command

And she's stringin' me along  
I'm 'bout to break, it's strong, so I can't detect it  
She's comin' up behind me in the mornin'  
Lovin' when I least expect it  
Every single thing about this situation  
Says I can't be wrong  
And every time she gets her satisfaction  
I want her to control me all night long
