

# Underground

Jack White

What's in the sky, comes from the sea  
If you see what I mean, what I mean  
The people feel they're under siege  
From what they can't believe  
From what they can't believe, yeah

And I wanna go where you go  
Underground yeah  
And I wanna know what you know  
What's underground  
What's underground

All that I see, I can't repeat  
When there's no one else around  
No one else around  
You can't be free if you can't defeat  
What's living underground  
What's living underground

And I wanna go where you go  
Underground yeah  
And I wanna know what you know  
What's underground  
What's underground

I said I wanna go where you go  
Underground yeah  
And I wanna know what you know  
What's underground  
What's underground  
Woo!  
What's underground
