Planes, Trains, Automobiles

Jackie Boyz

Baby I was so wrong
I can't lie I left you standin
Little did you know I was pretendin
I was alright yeah for the first ride
Now I need your heart back with me

But ten thousand miles here we go woah woah woah
When I arrive I don't know woah woah woah
I'm moving fast to your soul woah woah woah
I'll keep on searchin cause I know your what's importent

I'm talking planes, trains, automobiles
I'll take anyone just to get you back here
Your so far away but your still standing here
I need a plane train or automobile to your heart

Going down a dark road just looking for a sun
But I'll take the same route if it means you'll be mine
You said it I knew it I shoulda listened baby
I hope I still got time ohh woahh

But ten thousand miles here we go woah woah woah
When I arrive I don't know woah woah woah
I'm moving fast to your soul woah woah woah
I'll keep on searchin cause I know your what's importent

I'm talking planes, trains, automobiles
I'll take anyone just to get you back here
Your so far away but your still standing here
I need a plane train or automobile to your heart

Yeah I and still don't know how far
How I can get right through your heart
I can't erase girl what we shared
Cause you know my loves right here
But it still ain't alright

I'm talking planes, trains, automobiles
I'll take anyone just to get you back here
Your so far away but your still standing here
I need a plane train or automobile to your heart

I'm talking planes, trains, automobiles
I'll take anyone just to get you back here
Your so far away but your still standing here
I need a plane train or automobile to your heart
