

Always Together

Jackie DeShannon

Always be
You and me together
Ah, baby, always be
Just you and me together

I look to you
The sea looks to the sky
I look to you
'Cause Heaven is just a blaze deep in your eyes

Always be
Just you and me together
Always be
Just you and me together

You're so good
I've tried to explain
Ooh, you're so good
Good as the sunshine in the rain

Always be
You and me together
Woah, baby, always be
Just you and me together

Now, I know
What it is to live
Now, I know
I am getting always together

Always be
Just you and me together, together
Always be
You and me together

Nobody come between us
Always be
Just you and me together
Forever and ever
Always be
You and me together, together
Always be
You and me together
