

Here On

Jackie DeShannon

From here on, here on
Set your mind to be strong
From here on

Trusting in one another
The light shines far in your eyes
One door can open the other
To where the promises lie
Whenever you get discouraged
And you can't see what's ahead
You'll find the strength where your heart goes
Remember this I said

From here on, here on
Set your mind to be strong
From here on

If you should care to stay by me
I'll lay these words at your feet
My hope comes with our tomorrows
To serve the people in need
Let truth speak out for injustice
Before the time slips away
Somebody change this indifference
A world of children can't wait

From here on, here on
Set your mind to be strong
From here on

Here on

I've listened to all the stories
Something I know to be real
We can break out of this circle
And help our bodies to heal
When will they give absolution
As yet the answer's unsure
One day a people united
Will bring the peace we search for

From here on, here on
Set your mind to be strong
From here on

Here on
Set your mind to be strong
From here on

Here on, here on
Set your mind to be strong
From here on ...
