

I Can't Make My Dreams Understand

Jackie DeShannon

I kiss him goodnight and tell him I love him
Then I keep my rendezvous
Knowing that when I go to sleep
I'm gonna dream about you

I can't make my dreams understand that it's wrong
To dream about you when with him I belong
I've made vows to God, and I've made vows to man
But I can't make my dreams understand

My fingers are crossed when I say I love him
And lying just don't make it right
Mm, but each night when I go to sleep
I dream about holding you tight

I can't make my dreams understand that it's wrong
To dream about you when with him I belong
I've made vows to God, and I've made vows to man
But I can't make my dreams understand
